# Recent advances in cellulose nanotechnology research

Production, characterization and applications

## Invitation

**RISE PFI has the pleasure to invite to the conference Recent advances in cellulose nanotechnology research in Trondheim, Norway 11 - 12 September 2024. This is the 9th seminar in a successful series of biannual meetings held since 2006.**

Nanocelluloses have significant commercial potential for a wide range of applications. Since the first conference in this series was held, utilization of nanocelluloses have developed from being solely a research topic to be used in commercially available products. The conference focuses on production, characterization and applications of cellulose nanofibrils and nanocrystals. The attendees will be offered a unique platform for new insight into the latest developments in cellulose nanotechnology research, as well as an opportunity to exchange knowledge and ideas.

### EARLY-BIRD REGISTRATION FEE:

7750 NOK. Deadline 15 August 2024. **This includes lunch both days, refreshing coffee breaks and conference dinner 11 September.** Late registration fee: 8750 NOK.

**Register online at [rise-pfi.no/en/we-offer/conference/](https://rise-pfi.no/en/we-offer/conference/)**

Call for posters: Authors should submit a maximum one page abstract of their posters. Submit your poster to [firmapost@rise-pfi.no](mailto:firmapost@rise-pfi.no), using "Nanocellulose poster" in the subject field. Deadline: 15 August 2024.

*The Research Council of Norway is acknowledged for financial support.*
